

The E-Muvr flat bed is an ideal match for the **Land Pride Treker®** utility vehicle. Our flat bed is the solid foundation for additional E-Muvr accessories. Every flat bed comes standard with our unique quick attachment points laser cut into the bed surface. Knockouts are pre placed to allow for easy installation of lights. Holes are located for marker, tail, turn, and stop lights.

An E-Muvr Flat Bed enables the operator the option of configuring the vehicle with our other accessories for tasks such as:

- Emergency Rescue
- Hauling tools and equipment
- Construction support
- Public events support
- Recreational events
- Fire suppression and attack
- Turf maintenance
- Facilities maintenance
- Off road utilities repair

All bed components are constructed of aluminum alloy. All fasteners are constructed of corrosion resistant materials to provide you with years of trouble-free service.

Work area is 63" wide x 50" long. Bed width is within the outside edge of the rear tires to ensure operation safety.

All E-Muvr products are backed by a two year warranty.
